---

The following outlines more than ten years of experience as an independent technology consultant and founder of Spin RX Management Systems (1997-Present), a web hosting and e-commerce services company.

---

**FEDERAL RETIREMENT INSTITUTE – 2004-PRESENT**

✦ *Content-rich Web Site with E-Commerce* – Recently launched membership-based fedretirement.org for FEDweek (see below, 1997-Present). Developed all custom content admin tools and web interfaces with ties to current FEDweek content data structure. Designed and implemented bookstore functionality to feed into existing FEDweek e-commerce system. Incorporated PHP and MySQL.

**SONCO WORLDWIDE – 2002-2004**

✦ *Inventory-heavy Web Site with E-Commerce* – Designed, developed and implemented entirely custom inventory management tools, sales management tools, sales and customer calculators, sales and customer quoting system, shipping calculators, e-commerce transactions processing, and order management system. Incorporated PHP and MySQL.

**CATO INSTITUTE – 2000-2001**

✦ *Social Security Calculator* – Designed, built and implemented a web-based economic calculator based on logic in existing Java application. Incorporated ASP, ADO, Java, MS SQL, and HTML.

**REPUBLICAN NATIONAL COMMITTEE – 2000**

✦ *Major Donor Intranet Sites* – Built back-end functionality for four intranet sites for RNC major donors. Secure user environment provided interfaces for News, Chat, Calendar and Email distribution. Incorporated ASP, ADO, Java, MS SQL, and HTML.

**LUTC (LIFE UNDERWRITERS TRAINING COUNCIL) 1998-2001**

✦ *Web and Intranet System for Registration and Reporting* – Designed and built a web- and intranet-based registration and e-commerce application for the national insurance personnel accreditation group. Incorporated purchase order tracking, customer data tracking, and reporting interfaces for client and member organizations. Incorporated ASP, ADO, MS SQL, ActiveX and HTML.

**MINDBANK – 1997**

✦ *USPS Nationwide International Shipping Tracking System* – Developed database-driven application to track the movement of internationally bound corporate packages. Incorporated Visual Basic and MS SQL.

**FEDWEEK 1997-PRESENT**

✦ *Market-Leading E-Commerce Site* – Host high-traffic web site and process 5,000 e-commerce transactions per month for FEDweek, the market-leading publisher of federal employee handbooks and e-newsletters (over 1 million subscribers). Recently launched the fourth generation system with this client (also developed the previous three). Suite includes invoicing system, transaction management tools and reports, sales reporting and custom

content management tools. Recently converted entire system and functionality from NT to Linux. Have incorporated NT and Linux, SQL and MySQL, ASP and PHP.

#### **AMS (AMERICAN MANAGEMENT SYSTEMS) – 1994-1997**

✦ *Nationwide Customer Care System (Switzerland)* – Served as lead technical consultant to Swiss Telecom - Blue Window on nationwide, enterprise-wide, Java-based customer care system. Managed all areas of design, application development, database development and security. Project incorporated Oracle, Java, and HTML.

✦ *CD-ROM Billing/Reporting System (Kansas City)* – Developed demo of CD-ROM-based billing and reporting system, which consolidated all relevant fields from a mainframe data source into a user-friendly interface. Included work in Visual Basic, C++ Oracle, MS Access.

✦ *Nationwide Billing/Commissions System (Spain)* – Worked to develop a nationwide billing and commissions system for a major cellular phone company. Included work in ODBC, Oracle, DB2, MS SQL, Visual Basic, and C++.

✦ *Phone Bank and Kiosk Ticket Sales System (Switzerland)* – Reviewed functionality, database structure and interfaces for compatibility with requirements of RFP from major Internet Service Provider.

#### **IFES (INTERNATIONAL FOUNDATION FOR ELECTORAL SYSTEMS) – 1994**

✦ *Elections/Balloting System* – Coordinated all technical aspects of development, testing and implementation of a nationwide ballot management tool for the elections in Haiti. Set up office in Haiti, built on-site local network, and hired and trained local Creole- and French-speaking data entry staff and support technicians. Included work in ODBC, Oracle, DB2, MS SQL, Visual Basic, C++.

#### **EDUCATION**

✦ *Master of Arts, Political Management, The George Washington University, 1995*

✦ *Bachelor of Science, American Studies, The George Washington University, 1991*

#### **PERSONAL**

✦ *CB and his wife Melissa moved to Annapolis in 1999. They recently razed and re-built their home in Hillsmere Estates on the South River, where they now live with their Great Dane and Manx.*

✦ *A life-long and award-winning sailor, CB and his wife are members of Severn Sailing Association, Eastport Yacht Club, International Lightning Class Association, and Alberg 30 Association (2005 Rear Commodore – Racing).*

✦ *As an avid Land Rover enthusiast, CB has purchased and restored several classic Range Rovers, doing most of the work himself.*

✦ *CB is a 32<sup>nd</sup> Degree Mason and a member of the Osirus-Pentalpha Lodge, Washington, DC.*

✦ *An active member of the Republican Party, CB has worked on many campaigns and political projects over the years. A political résumé is available upon request.*
